

TRANSPORT

From the A24, Dalesdown is reached by a narrow winding country lane and then a narrow farm drive and access is easier using smaller vehicles rather than larger coaches. Although access is now possible for full-size coaches, where possible we would encourage the use of smaller coaches or minibuses.

Please note that because of the narrow lane and drive, and overhanging branches, double decker vehicles are NOT suitable.

If required your coach driver can access a specific Dalesdown Google Map by clicking on [this link](#).
